chairman's report to shareholders

I have pleasure in presenting the Group's consolidated results for the year ended 30 June 2016.

Group's operations and results

Profit for the year ended 30 June 2016 was \$41,812,000 compared to \$37,418,000 for 2015, an increase of 11.7%.

Total revenue for the year was \$43,279,000 compared to \$38,978,000 during the prior year. Dividends and distributions received increased by \$4,527,000 or 11.8% from \$38,258,000 to \$42,785,000. Included in these dividends and distributions were special dividends totalling \$2,465,000. Almost all of the special dividends received were from Event Hospitality and Entertainment Limited (formerly known as Amalgamated Holdings Limited). Special dividends received in the prior year totalled \$640,000. Dividends and distributions received, before special dividends, increased by \$2,702,000 or 7.2%. Interest income was \$491,000 compared to \$720,000 in the prior year. The fall in interest income resulted from lower interest rates, with the weighted average interest rate on term deposits decreasing from 3.46% in the prior year to 2.96%, and a reduction in average funds on deposit during the year of \$5.1 million.

Administration expenses amounted to \$733,000, compared to \$758,000 in the previous year. The management expense ratio (MER) reduced from 0.09% in the prior year to 0.08% for the year to 30 June 2016.

Earnings per ordinary share

Basic and diluted earnings were \$1.579 per ordinary share for the year to 30 June 2016 compared to \$1.413 per share for 2015.

Dividends

On 24 August 2016 the directors declared a final fully franked dividend of 68 cents per ordinary share plus a special fully franked dividend of 7 cents per ordinary share, payable on 26 September 2016. Directors have declared a special dividend in recognition of the high level of special dividends received during the year. Total dividends paid and payable in respect of ordinary shares for the financial year ended 30 June 2016 amount to \$1.14 per share, before the special dividend, an increase of 5.6% on that paid for the prior year. After taking into account the special dividend, the percentage increase in dividends to ordinary shareholders is 12.0%.

The interim dividend paid in March 2016 was increased by 7.0% (from 43 to 46 cents) as Directors' continue to progressively increase the level of the interim dividend as a percentage of total annual dividends.

A final preference share dividend of 7 cents per share fully franked is also payable on 26 September 2016.

The record date for both the ordinary and preference final dividends is 1 September 2016.

The Dividend Reinvestment Plan remains suspended.

Net tangible asset backing

The net tangible asset backing for each issued ordinary share at 30 June 2016, prior to the payment of the final dividend noted above and before provision for estimated capital gains tax in respect of unrealised investment portfolio gains, was \$35.52 (2015: \$34.51). Although the Board has no present intention of disposing of any of the Group's equity investments, the net tangible asset backing per share after provision for tax on unrealised capital gains was \$29.33 (2015: \$28.66). The relevant figures as at 31 July 2016 were \$36.79 and \$30.28 respectively.

Investments

The market value of the equity investment portfolio as at 30 June 2016 was \$919,363,000 compared to \$893,583,000 at the prior year end. Short term cash deposits at 30 June 2016 amounted to \$14,100,000 (2015: \$13,950,000).

The Board's policy is to acquire additional investments in equities that meet the criteria of providing high levels of income through predominantly fully franked dividends and have the potential for long term capital growth. The cost of equity investments purchased during the year to 30 June 2016 totalled \$11,611,000 (2015: \$23,380,000).

Acquisitions above \$500,000 during the year were:

AMP	\$992,000
Challenger	\$500,000
Commonwealth Bank	\$1,708,000
Macquarie Bank	\$995,000
Medibank Private	\$502,000
Origin Energy	\$1,657,000
Santos	\$1,514,000
Transurban	\$519,000
Westpac Banking Corp.	\$1,893,000
Woolworths	\$993,000

The Group also received shares in CYBG PLC during the year, which had a market value at 30 June 2016 of \$2,290,000, when the National Australia Bank demerged its UK banking operations.

Consideration received on disposal of equity investments and capital returns during the financial year totalled \$130,000 (2015: \$2,299,000). Consideration from disposals in the prior year included proceeds from the redemption of bank hybrid securities and capital returns totalling \$2,254,000.

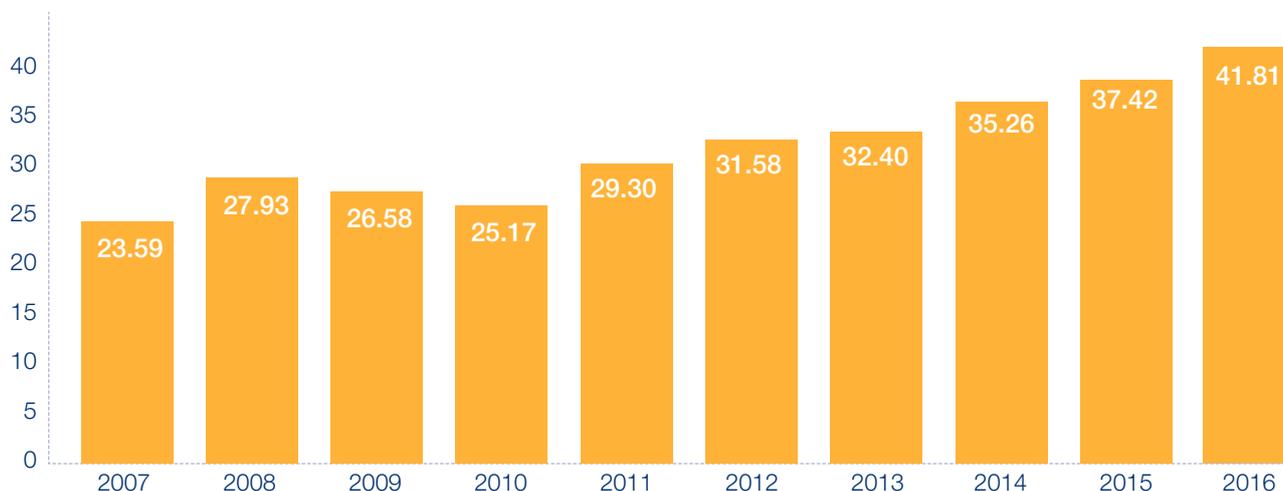

After adjusting for the above total investment acquisitions and disposals, the market value of the investment portfolio increased by \$14,301,000 or 1.6% during the year to 30 June 2016. This compares favourably to a decrease of 4.1% in the S&P/ASX 200 Index over the same period. On a total portfolio return basis (measured by the movement in NTA per share assuming dividends are reinvested), the return for the twelve months was 6.3% compared with an increase in the S&P/ASX 200 Accumulation Index over the same period of 0.6%. Decreases in the market value of the Group's holdings in banking and mining stocks during the year to 30 June 2016 were more than offset by an increase in portfolio market value of the Group's holding in Event Hospitality and Entertainment Limited.

The Group continues to hold its equity investments for the long term and does not act as a share trader nor does it invest in speculative stocks.

FOR THE YEAR ENDED 30 JUNE 2016

Corporate Governance Statement

This statement outlines the main Corporate Governance practices that have been adopted by the Board which, unless otherwise stated, comply with the ASX Corporate Governance Principles and Recommendations issued by the ASX Corporate Governance Council. The appropriateness of the adopted practices is subject to continuous review by the Board. Companies listed on the Australian Securities Exchange are required under the ASX Listing Rules to detail the principles and recommendations with which they have not complied and provide reasons as to why they have not done so.

The eight ASX Corporate Governance Principles and the Company's approach to them are as follows:-

1. Lay solid foundations for management and oversight

The Company has a Board of three non-executive directors and two employees, namely the company secretary/chief financial officer and a compliance manager. Due to the lack of complexity in the Company's operations no director acts as chief executive officer. In accordance with Board policy the company secretary/chief financial officer is primarily and directly responsible to the directors for the general and overall management of the Company.

The terms and conditions relating to the appointment and retirement of all directors are determined on a case by case basis within the requirements of the Corporations Act 2001 and the ASX Listing Rules. The Company provides directors and senior management, on appointment, a letter setting out key terms and conditions relative to their appointment so that they clearly understand their corporate expectations.

Under the Company's Constitution directors are subject to re-election by shareholders by rotation every three years. The Board has established a Nominations and Remuneration Committee whose responsibilities include identifying and overseeing the appointment of new directors with the necessary and desirable competencies. Prior to the appointment of directors, appropriate background and reference checks are undertaken.

Newly appointed directors must stand for reappointment at the next subsequent AGM. The Notice of Meeting for the AGM provides shareholders with information about each director standing for election or re-election including details of relevant experience. Details regarding the current directors are included on page 5.

Letters setting out the terms of appointment have been issued and acknowledged in writing by each director.

The primary responsibility of the Board is to develop the overall strategy of the Company and to preside over the management of the Company to protect and enhance shareholders' interests. The Board's role is to ensure the

Company meets its obligations and responsibilities in all areas affecting shareholders, the market and the community generally. The Board's roles and responsibilities which include strategic direction of the Company, governance and operating performance, are set out in its Charter which is reviewed on a regular basis. A copy of the Charter is available on the Company's website. The policies and procedures detailed in this Statement have been instituted by the Board to ensure that the Board's roles and responsibilities are complied with. The Board is assisted in the execution of its responsibilities by the Audit and Risk Committee and the Nominations and Remuneration Committee, both of which are chaired by an independent non-executive director.

Meetings of the Board are held regularly during the year. In any month where a meeting does not take place the company secretary still prepares a detailed report for the Board's information and consideration.

The most recent performance evaluation and remuneration review conducted by the Nominations and Remuneration Committee for the company secretary/chief financial officer was carried out in May 2016, after reference to current market rates. Detail of remuneration for the company secretary/chief financial officer is set out on page 11.

The company secretary/chief financial officer is responsible to the Board for the implementation of the strategy and management of the Company. He manages the Company's operations in accordance with the strategy, business plans and policies approved by the Board to achieve agreed goals. He acts as public officer for taxation matters and is responsible for the Company's continuous disclosure requirements of the ASX.

The company secretary/chief financial officer is accountable directly to the Board through the Chairman for matters relevant to the Board.

The Company's policy on diversity stipulates that there is to be no discrimination in respect of race, creed or gender when seeking potential candidates for Board positions. This policy also applies to employees. Currently the Company has a Board of three male directors and one male and one female employee. The size of the Company's operations does not provide widespread opportunities to have a workforce covering all sections of the community.

2. Structure the Board to add value

The Board's policy is that, of the three directors comprising the Board, two must be independent non-executive directors not having a major shareholding in the Company, not having been a principal or employee of a professional advisor or consultant to the Company within the previous three years, not having been employed in an executive capacity by the Company and is free of any business or other relationship that could materially interfere with the

exercise of their unfettered and independent judgement. Both Mr Clark and Mr Bleach are independent non-executive directors having served on the Board since 2000 and 2014 respectively. Due to the nature of the Company's activities it is not considered that Mr Clark's length of service as a director could, or could reasonably be perceived to, materially interfere with his ability to act in the best interests of the Company. The Chairman, Mr A G Rydge, due to his related interests in the Company, is not considered to be independent however, the remaining members of the Board do not consider that this in any way diminishes the efficient organisation and conduct of the Board's function.

The Company seeks to maintain a Board of directors with broad knowledge of and involvement in the finance and investment sectors with past financial and management experience, preferably with publicly listed companies. It is the Company's policy that there is to be no discrimination in respect of race, creed or gender when seeking potential candidates for Board positions. The Board has developed a matrix to consider the mix of appropriate skills, experience and expertise for Board membership. As well as the general skills expected for Board membership; the matrix includes items such as relevant experience in investment portfolio management and capital management.

The following table summarises the key skills and experience that the company seeks in its Board of Directors:

Skills and Experience	Rating*
Financial acumen	High
Investment portfolio management	High
Management/CEO experience	High
Holds or has held other Directorships of listed entities	Medium
Risk and strategic risk management	High
Governance	High
Capital management	High

*The Board has assessed its rating considering the combined skills, competency and experience of Board member in each key area deemed relevant for the Group.

On induction, new directors are provided with relevant financial information, Board and Committee Charters and all Company policies. The new director then meets with the Chairman and company secretary to discuss the Company history, significant financial, accounting and risk management issues, existing investment portfolio and investment guidelines.

The Company has a Nominations and Remuneration Committee comprising the three non executive directors. The Committee, whose roles and responsibilities are set out in its Charter, which is reviewed on a regular basis for appropriateness, is chaired by an independent non-

executive director. In accordance with the Charter it evaluates by discussion the Board's and each individual director's performance on an annual basis, assesses the necessary and desirable competencies of Board members and reviews succession plans taking into consideration the range of skills, experience and expertise of the current members. The last such review was performed in May 2016. Each director is required to notify the Board of any change in circumstances that could impair their position as a director.

Fees paid to the non executive directors (there are no executive directors) are set each year by the Committee and, after reference to current market rates, are based on the nature of each director's performance and responsibilities. In accordance with the Corporations Act 2001 total fees for all directors are within the maximum amount of fees that have been approved by the shareholders at general meetings to be paid to the directors.

Directors do not receive any form of remuneration other than by way of payment of directors' fees for past service and the Superannuation Guarantee levy. No commitments have been given to make a payment to a director on retirement. They do not receive any options over shares in the Company. Details of directors' remuneration are set out on page 11. The Chairman meets with each director and officer to discuss matters affecting Board and management effectiveness as and when they arise. Each director also may at any stage raise appropriate matters with the Chairman.

Subject to prior discussions in a Board meeting, each director is entitled to seek independent professional advice at the Company's expense provided such advice is essential for the execution of the director's obligations. A copy of the advice received by the director is made available to all other members of the Board.

3. Promote ethical and responsible decision making

The Company, through its Code of Ethics and Business Conduct, recognises the importance of the Company's directors and employees conforming to the highest standards of ethical and responsible decision making. All directors and employees are made aware that they are expected to act in their business dealings for the Company in accordance with the Law and high standards of propriety. The Code covers areas such as the Company's and the Board's policy on diversity and its responsibilities towards employees and shareholders, dealings with third parties, conflicts of interest, safeguarding assets, financial reports and accounting records and insider information and trading in the Company's shares. Directors and employees must keep the Board advised on an on-going basis of any interest that could potentially conflict with those of the Company.

directors' report

FOR THE YEAR ENDED 30 JUNE 2016

The Company has a Trading Policy that specifies the periods of the year where trading in its shares by directors and employees are prohibited.

A copy of the Code and the Trading Policy are available on the Company's website.

4. Safeguard integrity in financial reporting

The Company, in accordance with the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, has an Audit and Risk Committee whose roles and responsibilities are set out in its Charter. The Charter is reviewed annually for appropriateness. A copy of the Charter can be obtained from the Company's website. The Committee acts as an independent and objective body to monitor the Company's financial reporting processes, corporate risk assessment, systems of internal controls and the results of the external audit (including a review of the independence of the external auditor). The Committee consists of the three non-executive Board members and is chaired by an independent non-executive director. Committee members receive comprehensive regular reports on the Company's affairs from the company secretary/chief financial officer and have unrestricted access to Company records and information. The Committee requires the company secretary/chief financial officer to provide it with a declaration under Section 295(A) of the Corporations Act each half year and annually stating whether, in his opinion, the Company's financial reports present a true and fair view, in all material respects, of the Company's financial condition and operational results and whether they are in accordance with the relevant accounting standards. He is also required to state whether, in his opinion, the integrity of the financial statements has been founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board and whether the Company's risk management and internal compliance and control systems are operating efficiently and effectively in all material respects.

The engagement partner of the external auditor meets with the Audit and Risk Committee each six months when finalising the half year and annual results to discuss the audit findings including whether there are any significant issues that have arisen during the audit. The engagement partner has been requested to raise with the Board at any other time any pertinent issues that should be addressed by the Board. The Committee also meets with the external auditor to review the auditor's performance and to discuss the proposed audit plan and fees. The Committee, after reviewing the auditor's performance, has the responsibility for determining whether a recommendation be made to the Board that there should be a change of external auditor. It is responsible for ensuring that there is a rotation of audit engagement partner in accordance with legislation currently in force.

The Committee reviews the appropriateness of any significant non-audit service proposed to be provided by the external auditor before giving its approval.

The engagement partner from the external auditor attends the annual general meetings and is available to answer shareholders' questions at that meeting.

5. Make timely and balanced disclosure

The company secretary/chief financial officer has, in accordance with the Company's written Continuous Disclosure Policy, been nominated as the person with primary responsibility for the Company's communications with the ASX and is required to be fully conversant with the ASX Continuous Disclosure Listing Rules as they affect the Company. He is responsible for ensuring that communications are made in a timely manner, are factual and are expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions. Members of the Board, in accordance with the Board Charter, meet with the company secretary/chief financial officer on a six monthly basis to review the Company's on-going compliance with the continuous disclosure requirements. Each member of the Board has a responsibility to advise the company secretary/chief financial officer of any relevant disclosure matters of which they become aware.

6. Respect the rights of shareholders

It is Company policy to maintain full and informative communications with all shareholders. This is achieved by way of detailed reports to shareholders on the half year and annual results, net tangible asset backing details disclosed monthly to the market and through the Chairman's address at general meetings. Copies of these documents, together with any other announcements made to the ASX are available from the websites of the Company and the ASX. Copies of documents covering Corporate Governance matters such as the Board and committee charters, risk management policy, communications, code of conduct, continuous disclosure policy, etc. are available to shareholders on the Company's website. The website address for the Company is www.carltoninvestments.com.au.

Shareholders are able to contact the Company or its share registrar, Computershare Investor Services Limited, by mail, telephone, email or online via the Computershare Investor Centre portal. Shareholders may choose to receive communications from, and send communications to, the Company and Computershare electronically.

7. Recognise and manage risk

The Company has a detailed policies, procedures and controls manual that sets out the roles of the Board and management in recognising risks associated with the consolidated entity's operations and the safeguards instituted to control those risks. It is the Audit and Risk Committee's responsibility to review the risk management policies and to ensure that they are both appropriate for the Company's operations and are being adhered to. The Company does not have an internal audit function due to the lack of complexity in its operations however, the Company employs a part-time compliance manager who reports to the Board monthly on compliance with key internal control processes and reporting requirements and attends each Audit and Risk Committee meeting. The company secretary/chief financial officer also reports to the Audit and Risk Committee and Board as at each half year and financial year end whether, in his opinion, the integrity of the financial statements is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board and that the risk management and internal compliance and control system is operating efficiently and effectively in all material respects. The Audit and Risk Committee meets with the engagement partner of the external auditor at least every six months to discuss the auditor's review or audit findings. These requirements have been undertaken in respect of the year ended 30 June 2016.

The Company has economic and investment risks but does not have any direct environmental and social sustainability risks. In addressing investment risk the Board considers the economic environmental and social sustainability risks of those companies in which the Company invests.

A copy of the Company's risk management policy is available on the Company's website.

8. Remunerate fairly and responsibly

As detailed under 2 above the Company has a combined Nominations and Remuneration Committee that has as one of its responsibilities the determination of appropriate remuneration policies for Board members and employees. The Committee has a Charter that sets out its role and responsibilities, composition, structure and membership requirements. The membership of the Committee consists of the three non executive directors and is chaired by an independent director.

Compliance with ASX Corporate Governance Principles and Recommendations

The Company complies, to the extent appropriate for an organisation of its size, with the ASX Corporate Governance Principles and Recommendations with the exception of Recommendation 2.5 as the Chairman is not considered to be an independent director.

Principal activities

The principal activity of the Group is the acquisition and long term holding of shares and units in entities listed on the Australian Securities Exchange. There have been no significant changes in the activity of the consolidated entity during the year under review.

Environmental regulation

The Group's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation.

Events subsequent to balance date

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in subsequent financial years.

Results and review of operations

The consolidated profit for the year attributable to the members of Carlton Investments Limited was:

	2016 \$000	2015 \$000
Operating revenue	43,279	38,978
Administration and finance costs	(745)	(770)
Profit before income tax expense	42,534	38,208
Income tax expense	(722)	(790)
Net profit for the year	41,812	37,418

Dividends and distributions received increased by \$4,527,000 or 11.8%. Included in these dividends and distributions were special dividends totalling \$2,465,000. Almost all of these special dividends received were from Event Hospitality and Entertainment Limited (formerly known as Amalgamated Holdings Limited). Special dividends received in the prior year totalled only \$640,000. Dividends and distributions received, before special dividends increased by 7.2% compared to an increase of 7.7% in the prior year.

Interest income decreased from \$720,000 in the prior year compared to \$491,000. The fall in interest income resulted from lower interest rates, with the weighted average interest rate on term deposits decreasing from 3.46% in the prior year to 2.96%, and a reduction in average funds on deposit during the year of \$5.1 million.

Administration expenses amounted to \$733,000, compared to \$758,000 in the previous year. The management expense ratio (MER) reduced from 0.09% in the prior year to 0.08% for the year to 30 June 2016.

directors' report

FOR THE YEAR ENDED 30 JUNE 2016

Results and review of operations (cont.)

The investment portfolio held by the Group is valued at market values. Increments and decrements in the market value of equity investments are recognised as other comprehensive income and taken to the revaluation reserve. The market value of the investment portfolio in listed entities increased during the year to 30 June 2016 by \$14,301,000 or 1.6%, after adjusting for acquisitions, capital returns and disposals. This compares favourably to a decrease of 4.1% in the S&P/ASX 200 Index over the same period. On a total portfolio return basis (measured by the movement in NTA per share assuming dividends are reinvested), the return for the twelve months was 6.3% compared with an increase in the S&P ASX 200 Accumulation Index over the same period of 0.6%.

The cost of equity investments purchased during the year to 30 June 2016 totalled \$11,611,000 (2015: \$23,380,000). Major additions to the portfolio included the increase of existing holdings in the Commonwealth Bank, Origin Energy, Santos, Westpac and Woolworths. There was also a new investment in AMP and Macquarie Group. The Group also received shares in CYBG PLC when the National Australia Bank demerged its UK banking operations. The Group continued to invest in Australian listed entities that are considered to be well managed and are anticipated to provide attractive levels of sustainable income through predominantly franked dividends and also long term capital growth. Details of investment acquisitions over \$500,000 during the year to 30 June 2016 are given in the Chairman's Report.

Consideration received on other disposals of equity investments and capital returns during the financial year totalled \$130,000 (2015: \$2,299,000). Consideration from disposals in the prior year included proceeds from the redemption of bank hybrid securities and capital returns totalling \$2,254,000.

The Group has experienced modest portfolio market value growth in the year to 30 June 2016, with decreases in the market value of the Group's holdings in banking and mining stocks being more than offset by an increase in the market value of the Group's holding in Event Hospitality and Entertainment Limited. This modest portfolio market value growth is after three years of strong value growth.

We see the likelihood of continuing periods of market volatility, with ongoing uncertainty as to the outcome of risk factors effecting international markets. For the Australian market we see the current subdued economic growth expectations continuing in the year ahead.

Dividends

• Paid during the year in respect of the prior financial year:

- (i) As proposed in last year's report, a final ordinary share dividend of 65 cents per share, fully franked, amounting to \$17,209,000 was paid on 21 September 2015.
- (ii) As proposed in last year's report, a final preference share dividend of 7 cents per share, fully franked, amounting to \$6,000 was paid on 21 September 2015.

• In respect of the current financial year: \$000

- (i) An interim ordinary share dividend of 46 cents per share, fully franked, was declared and paid on 21 March 2016. 12,178
- (ii) A final ordinary dividend of 68 cents per ordinary share in respect of the year ended 30 June 2016 has been declared. The dividend will be fully franked. 18,003

A special dividend of 7 cents per ordinary share in respect of the year ended 30 June 2016 has been declared. The dividend will be fully franked. 1,853

Total ordinary share dividends paid or payable in respect of the year ended 30 June 2016 32,034

(iii) An interim preference share dividend of 7 cents per share, fully franked, was paid on 21 March 2016. 6

(iv) A final preference share dividend of 7 cents per share, fully franked, has been declared. 6

Total dividends paid or payable in respect of the year ended 30 June 2016 32,046

In the financial statements preference share dividends are recorded as a finance cost, refer note 3-4 to the financial statements.

Likely developments

The Group will continue to pursue its policy of holding equity investments on a long term basis and reinvesting dividends and other income in entities listed on the Australian Securities Exchange, together with accepting takeover offers which would prove to be of advantage to the Group.

Remuneration Report – Audited

The Company has a Board of three directors and employs two staff, one of whom is the company secretary/ chief financial officer. The Board reviews the performance of the company secretary / chief financial officer and determines the appropriate remuneration after having reference

to current market rates. Directors' fees for the non-executive directors (there are no executive directors) are recommended to the Board each year by the Nominations and Remuneration Committee and, after reference to current market rates, are based on the nature of each director's work and responsibilities. Directors do not receive additional fees for Committee participation. These fees are within the maximum amount of \$350,000 that was approved by the shareholders at the 2014 annual general meeting. Performance evaluation and remuneration reviews are carried out in May each year, with any remuneration

increases being effective from 1 July. No director or the company secretary/chief financial officer has a service agreement.

Directors and the company secretary/chief financial officer do not receive any remuneration subject to performance conditions including bonuses or options over shares in the Company. There were no non-monetary benefits given to directors or the company secretary/chief financial officer. Their only remuneration is by way of fees and salary respectively, together with superannuation contributions which are paid to defined contribution funds.

None of the directors or entities in which the directors have a beneficial interest, hold preference shares. Mr Rydge also has a non-beneficial interest in 630,169 (2015: 630,169) ordinary shares and 37,941 (2015: 37,941) preference shares by virtue of his directorship of Event Hospitality & Entertainment Limited.

No options were granted over unissued ordinary shares in the Company to any officer of the Company during or since the end of the financial year and at the date of this report there are no unissued ordinary shares under option.

Indemnification of officers

The Company has agreed to indemnify the current directors and company secretary of the Company and its controlled entities for all liabilities to another person (other than the Company or a related body corporate) that may arise from their position, except where the liability arises out of conduct involving a lack of good faith. The agreements stipulate that the Company will meet the full amount of any such liabilities, including costs and expenses.

No premium has been paid, or agreed to be paid, for insurance against a current or former officer's or auditor's liability for legal costs.

Non-audit services

During the year KPMG, the Company's auditor, has performed certain other services in addition to its statutory duties. The Directors are satisfied that:

- (a) the non-audit services provided during the financial year by KPMG as the external auditor were compatible with the general standard of independence for auditors imposed by the Corporations Act 2001; and
- (b) any non-audit services provided during the financial year by KPMG as the external auditor did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:
 - (i) the nature and scope of any non-audit service provided is reviewed and approved by the Audit and Risk Committee to ensure that they do not adversely affect the integrity and objectivity of the auditor; and
 - (ii) the amount of non-audit fees paid to KPMG in comparison to the amount of audit fees are considered to be significantly within an appropriate threshold to maintain auditor independence.

notes to the consolidated financial statements

FOR THE YEAR ENDED 30 JUNE 2016

SECTION 1 – BASIS OF PREPARATION

1-1 Reporting Entity

Carlton Investments Limited (The Company) is a company domiciled in Australia. The address of the Company's registered office is Level 15, 478 George Street, Sydney, NSW. The consolidated financial report of the Company as at and for the year ended 30 June 2016 comprises the Company and its subsidiaries (collectively referred to as the "Group"). The Group is a for-profit entity and operates predominately in the acquisition and long term holding of shares and units in entities listed on the Australian Securities Exchange and solely within Australia.

The consolidated financial statements were authorised for issue by the Board of Directors on 24 August 2016.

1-2 Basis of preparation

(a) Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial statements also comply with International Financial Reporting Standards (IFRSs) and interpretations adopted by the International Accounting Standards Board (IASB).

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except that investments in equities have been stated at their market values at balance date.

(c) Functional currency and presentation

These consolidated financial statements are presented in Australian dollars which is the Group's functional currency. The ASIC Corporations (rounding in Financial/Directors' Reports) Instrument 2016/191 is applicable to the Group and therefore the amounts in the financial report and Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

(d) Changes in accounting policies

The accounting policies adopted by the Group are consistent with those adopted during the previous corresponding financial year.

(e) New and Revised Accounting Standards

A number of new accounting standards and interpretations became mandatory for the current financial year ended 30 June 2016. These new accounting standards and interpretations have not had a material effect on the Group's consolidated financial statements.

The following accounting standards, which are not yet mandatory, have been early adopted by the Group:

- Accounting Standard AASB 9 Financial Instruments was early adopted in the year ended 30 June 2010.
- AASB 2015-2 *Amendments to Australian Accounting Standards – Disclosure Initiative: Amendment to AASB 101 Presentation of Financial Statements*, was first adopted for these financial statement. These amendments removes minimum disclosure requirements from AASB101, including the removal of reference to a "summary of significant accounting policies" and allows the reorganisation and grouping of notes to the financial statements to give prominence to those areas most relevant to understanding the Group.

There are also a number of new accounting standards, amendments to accounting standards and interpretations, which are not yet mandatory, which have not been adopted in preparing these consolidated financial statements. From an initial assessment, it is not expected that these amended accounting standards and interpretations will have a significant effect on the consolidated financial statements of the Group when they are adopted.

notes to the consolidated financial statements

FOR THE YEAR ENDED 30 JUNE 2016

SECTION 2 – EARNINGS AND COSTS

2-1 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is the same as basic EPS as there are no dilutive potential ordinary shares on issue by the Company.

Basic and diluted earnings per ordinary share	\$1,579	\$1,413
Reconciliation of earnings used in the calculation of earnings per share:	\$000	\$000
Profit as per the consolidated statement of profit	41,812	37,418
	Number	Number
Weighted average number of ordinary shares used in the calculation of basic and diluted earnings per share	26,474,675	26,474,675

2-2 Timing of recognition of income

Revenues from dividends and trust distributions are recognised in the profit or loss when the right to receive payment is established, which is the date that the investment trades "ex-dividend". Interest income comprising interest on short term deposits is recognised as it accrues.

2-3 Dividends and distributions received

2-5 Income tax

Accounting policy

Income tax expense comprises current and deferred tax. Current or deferred tax is recognised in profit or loss except to the extent that it relates to items recognised through other comprehensive income, when it is recognised into the revaluation reserve or directly in equity.

Current tax is the expected tax payable or receivable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax, being predominantly capital gains tax, is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets, using tax rates enacted or substantially enacted at the balance date. Deferred tax assets are reviewed at each reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3-1 Investments

	Note	2016 \$000	2015 \$000
Current			
Term deposits		14,100	13,950

Term deposits are carried at cost. They have been placed with major financial institutions and at 30 June 2016 had maturity periods of between 19 to 85 days (2015: 23 to 80 days) with interest rates of between 2.94% and 3.10% (2015: 2.96% and 3.12%). The weighted average effective interest rate on term deposits for the year ended 30 June 2016 was 2.96% (2015: 3.46%). Credit risk represents the loss that would be recognised if counterparties failed to perform as contracted. Credit risk on term deposits is minimised as deposits are only made with major Australian financial institutions with acceptable credit ratings determined by a recognised rating agency.

Investments and equities

Shares and units held in listed entities - at fair value	6-10	919,363	893,583
--	------	---------	---------

Shares and units in listed entities are valued continuously at fair value. Inputs used to determine fair value are the unadjusted last-sale price, last-bid price and last-sell price quoted on the Australian Securities Exchange at balance date. Fair value is determined at a value within the quoted bid/sell price spread with most investments being valued at the quoted last-sale price. As the inputs used to determine the fair value of shares and units in listed entities are prices quoted in an active market, being the Australian Securities Exchange, values are categorised within Level 1 of the fair value hierarchy of measurement under Accounting Standards AASB 13.

Any change in fair value of shares and units in listed entities is recognised, through the Statement of Comprehensive Income, directly in equity. During the year to 30 June 2016 investments were acquired for consideration of \$11,611,000 (2015: \$23,380,000). Proceeds from disposal of investments in the year totalled \$113,000 (2015: \$1,824,000), resulting in a realised loss, based on original cost values, of \$340,000 (2015: gain of \$29,000). Proceeds from capital returns during the year to 30 June 2016 totalled \$16,000 (2015: \$475,000). In the prior year investment disposals largely resulted from redemption of bank hybrid securities.

The group is not directly exposed to interest or currency risk through its equity investments.

The only individual, material investment in a listed equity, that is neither a subsidiary nor an interest in an associate or joint venture accounted for using the equity method, is:

FOR THE YEAR ENDED 30 JUNE 2016

SECTION 4 – SHARE CAPITAL, RESERVES AND DIVIDENDS PAID

4-1 Share capital and reserves

	2016 \$000	2015 \$000
Issued and paid up capital		
26,474,675 (2015: 26,474,675) ordinary shares fully paid	20,146	20,146
Movements in ordinary share capital		
Balance at the beginning of the financial year	20,146	20,146
On market share buy-back – nil	-	-
Balance at the end of the financial year	20,146	20,146

On 14 November 2001 the Company announced an On Market Buy Back of up to 2,500,000 of the Company's ordinary shares. This Buy-Back has been extended until 28 November 2017. There were no shares bought back during the year ended 30 June 2016 (2015: Nil). At 30 June 2016 the cumulative number of shares bought back since 14 November 2001 is 806,612 at a cost of \$10,700,000.

The Company does not have authorised capital or par value in respect of its issued shares. All issued shares are fully paid.

Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per ordinary share at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after preference shareholders and creditors and are fully entitled to any proceeds of liquidation.

Revaluation reserve

Revaluation reserve	420,061	414,819
---------------------	----------------	---------

The revaluation reserve comprises the cumulative change in the fair value of equity investments net of the estimated capital gains tax relating thereto.

4-2 Dividends

The following dividends were declared and paid by the Company:

Declared and paid during the year

	Cents per share	Total amount \$000	Franked/ unfranked	Date of payment
2015				
Final - ordinary share	65.0	17,209	Franked	21 September 2015
2016				
Interim - ordinary share	46.0	12,178	Franked	21 March 2016
Total		29,387		

Franked dividends declared or paid during the year were franked at the tax rate of 30%.

Declared after the end of the financial year

Final - ordinary share	68.0	18,003	Franked	26 September 2016
Special - ordinary share	7.0	1,853	Franked	26 September 2016

The financial effect of these dividends has not been brought to account in the financial statements for the year ended 30 June 2016 and will be recognised in subsequent financial reports.

Dividend franking account

30% franking credits available to shareholders of Carlton Investments Limited for subsequent financial years

2016 \$000	2015 \$000
42,433	38,110

The above available amounts are based on the balance of the dividend franking account at year-end adjusted for franking credits that will arise from the payment of the current tax liability.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends. The impact on the dividend franking account of dividends proposed after the balance date but not recognised as a liability is to reduce it by \$8,512,000 (2015: \$7,378,000).

4-3 Capital management

The Board manages the Group's capital base so as to maintain investors' value, market confidence and to sustain future growth of the business. In addition to endeavouring to achieve an increase in the value of capital invested by ordinary shareholders, the Board aims to be able to pay dividends which can be increased over future years. The actual level of dividends payable is dependent upon the level of income the Group receives from its investments. Capital management initiatives undertaken when appropriate from time to time include a share purchase plan, a dividend reinvestment plan and on market share buy-backs. The Group's capital consists of total shareholders' equity. Changes in the capital base are shown in the Consolidated Statement of Changes in Equity.

SECTION 5 – RISK

5-1 Critical accounting estimates and judgements

The preparation of the financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

A deferred tax liability has been recognised, in accordance with the requirements of Accounting Standards, in respect of Capital Gains Tax calculated on the unrealised gain applicable to the listed equity investments. It is the intention of Group entities to hold these investments for the long term and not to dispose of them. Accordingly, the deferred tax liability may not be realised at the amount disclosed in the financial statements and may also be affected by subsequent changes in tax legislation in regard to capital gains.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

5-2 Financial risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The risks associated with the Group's assets fall into three categories, namely, credit risk, liquidity risk and market risk. Market risk includes interest rate risk, currency risk and other price risk. The Group is not currently materially exposed to interest rate risk as its cash and term deposits are short term and for a fixed interest rate. There is no material direct exposure to currency risk as almost all financial assets and liabilities are denominated in Australian dollars.

Credit risk

Credit risk is the risk of financial loss to the Group if a counter-party to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from investment securities and term deposits. For the Company it arises from receivables due from subsidiaries. The credit risk with respect to term deposits is referred to in note 3-1. None of these assets are considered to be impaired.

notes to the consolidated financial statements

FOR THE YEAR ENDED 30 JUNE 2016

5-2 Financial risk management (cont.)

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another asset.

The only financial liabilities the Group has are for tax payable from time to time to the Australian Taxation Office, administration cost payables and payables for the purchases of investments. Cash flow forecasts are prepared on a monthly basis allowing for dividends and interest to be received, movements in term deposits, investments to be purchased, dividends to be paid and other outgoings. If the level of dividends or interest to be received were to reduce significantly the Group can reduce its planned acquisition of investments so that adequate liquid funds are available to meet any liabilities. Investments in listed entities could readily be sold on the Australian Securities Exchange to generate required funds.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

As the Group invests in equities listed on the Australian Securities Exchange there will always be a market risk as the price of the equities is subject to fluctuation. Equity investments represent 97.7% of total assets at 30 June 2016 (2015: 97.7%). If the market prices applicable to the listed equity portfolio were to fall by 5% or 10%, and if this fall was spread equally over all assets in the portfolio, total equity represented by share capital, reserves and retained profits would reduce by \$34,130,000 and \$68,260,000 respectively after tax.

A major part of the Group's income consists of dividends and distributions received from its investments. The level of these dividends and distributions fluctuates depending on the profits earned by the entities in which investments are held. There is a risk that in downturns in the economy the level of these profits will fall and consequently may affect dividends and distributions received.

The portfolio of listed equity investments is spread over a number of market sectors so as to reduce the market risk of a major fall in a particular sector. Details of investments held and the relevant market sectors are included in note 6-10.

SECTION 6 – OTHER INFORMATION

The Group operates only in Australia, investing predominantly in Australian listed securities and has no reportable segments.

6-8 Deed of cross guarantee

Pursuant to ASIC Class Order 98/1418 (as amended) dated 13 August 1998, the wholly-owned controlled entities listed below are relieved from the Corporations Act 2001 requirements for preparation, audit and lodgement of financial reports and directors' reports.

It is a condition of the Class Order that the Company and each of the controlled entities enter into a Deed of Cross Guarantee. The effect of the Deed is that the Company guarantees to each creditor payment in full of any debt in the event of winding up of any of the controlled entities under certain provisions of the Corporations Act 2001. If a winding up occurs under other provisions of the Act, the Company will only be liable in the event that after six months any creditor has not been paid in full. The controlled entities have also given similar guarantees in the event that the Company is wound up.

The controlled entities subject to the Deed are Carlton Hotel Limited, The Manly Hotels Pty Limited and Eneber Investment Company Limited. There are no controlled entities that are not party to the Deed.

The consolidated income statement, the consolidated statement of comprehensive income and the consolidated statement of financial position, comprising the Company and controlled entities which are party to the Deed, after eliminating all transactions between those entities at 30 June 2016, are set out on pages 14, 15 and 16 of the financial statements.

DIRECTORS' DECLARATION

1. In the opinion of the Directors of Carlton Investments Limited ("the Company"):
 - (a) the consolidated financial statements and notes that are set out on pages 14 to 32, and the Remuneration Report on pages 10 to 12, are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2016 and of its performance for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001;
 - (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
 - (c) there are reasonable grounds to believe that the Company and the Group entities identified in note 6-2 will be able to meet any obligations or liabilities to which they are or may become subject to by virtue of the Deed of Cross Guarantee between the Company and those Group entities pursuant to ASIC Class Order 98/1418.
2. The directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the chief financial officer for the financial year ended 30 June 2016.
3. The directors draw attention to note 1-2 to the consolidated financial statements, which include a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the Directors:

independent auditor's report to members of carlton investments limited

Report on the financial report

We have audited the accompanying financial report of Carlton Investments Limited (the Company), which comprises the consolidated statement of financial position as at 30 June 2016, and consolidated income statement and consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, notes 1-1 to 6-10 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the Group comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In note 1-2(a), the directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements of the Group comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001* and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Group's financial position and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of the Group is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2016 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in note 1-2(a).

Report on the remuneration report

We have audited the Remuneration Report included on pages 10 to 12 of the directors' report for the year ended 30 June 2016. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with auditing standards.

Auditor's opinion

In our opinion, the remuneration report of Carlton Investments Limited for the year ended 30 June 2016, complies with Section 300A of the *Corporations Act 2001*.
